## SPARE PARTS MANUFACTURERS' CODES, EQUIVALENTS & ALTERNATIVES

February 2018 | Paul Burgess

This is a list of Mayflower parts with manufacturer part numbers and other vehicles the parts may have been used on. There are also suggestions of possible alternative parts which may do the job. The entries include the Stanpart numbers and page numbers from 'The Triumph Mayflower Spare Parts List' published by The Standard Motor Co. Ltd. The list has been compiled in good faith from various sources including the internet and back copies of the club magazine Flower Power and as such the TMC cannot take responsibility for the accuracy of any entries in the list.

Whilst the club cannot carry a complete stock of spares, if you are looking for a part for your Mayflower a good starting point is the club Spares Secretary, who has a range of new and used parts available for purchase. His contact details are:

Paul Burgess, 14 West Street, Blaby, Leicestershire, LE8 4GY.

The club would like this list to develop over time. If you have any additional information which could be included or spot any inaccuracies please email Paul Burgess at:
